

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 30, 34, 37, 40, 43, 46, 49, 52, 55, 58, 61, 64, and 67; drawn to a generative manufacturing apparatus.

Group II, claim(s) 31, 35, 38, 41, 44, 47, 50, 53, 56, 59, 62, 65, and 68; drawn to a generative manufacturing apparatus.

Group III, claim(s) 32, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, and 75; drawn to a generative manufacturing apparatus.

Group IV, claim(s) 76, 80, 83, 88, and 91; drawn to a generative manufacturing method.

Group V, claim(s) 77, 81, 84, 89, and 92; drawn to a generative manufacturing method.

Group VI, claim(s) 78, 79, 82, 85, 86, 87, 90, and 93; drawn to a generative manufacturing method.

2. The inventions listed as Groups I through VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is a material applicator and a substrate. This element cannot be seen as a special technical feature under PCT Rule 13.2 because the

element is shown in the prior art. U.S. Patent 4,323,756 (claim 1) teaches the use of a material applicator and a substrate as claimed in claims 30, 31, 32, 76, 77, and 78.

3. A telephone call was made to Steve Courtright on 11/6/2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TIMOTHY KENNEDY whose telephone number is (571)270-7068. The examiner can normally be reached on Monday to Thursday 7:30am to 5:00pm, and every other Friday 7:30am to 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Angela Ortiz can be reached on (571) 272-1206. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
